AMERICAN KALEIDOSCOPE

The United States has become the largest “Nation of Nations” in the world, especially since the promulgation of 1965 Immigration Act, which has become the foundation of today’s immigration laws.

While millions of immigrants have come to USA from every corner of the world, the interesting facts, according to the research by the *Pew Organization*, for the 3 selected groups are as follows:

“Give me your tired, your poor, your huddled masses yearning to breathe free.”

1. African & Black Immigrants (from Africa, Caribbean & Latin America):

- One-in-Ten Black People living in the U. S. are Immigrants from Africa, Caribbean or Latin America.
- In 2000, roughly 560,000 African-born immigrants lived in the U. S., by 2019 there were 1.9 million but by 2060 there will be 9.5 million Black immigrants, according to the Census Bureau projections.
- The Black immigrants are projected to outpace US born Blacks in growth (90% vs 29%)
- 12% of Black immigrants are foreign born, while 9% are 2nd generation and 79% are 3rd generation.

- Most African-born immigrants are new arrivals – 43% arrived between 2010 to 2019, higher than the shares among all U. S. immigrants (25%) and Black immigrants from the Caribbean (21%), Central America (18%) and South America (24%) in the same time period.
- Black Immigrants are very educated and have a Bachelor’s degree (All Immigrant (33%), US born Black (22%), Black Immigrants (31%), many have Master’s and Higher degrees.
- The median household income for Black Immigrants in 2019 was \$57,200, as compared to U.S. born Blacks (\$42,000), while all immigrants to USA earned \$63,000.
- The Caribbean is the largest origin source of Black immigrants, but fastest growth is among African immigrants.
